

## LUCY HORWOOD ON PWLLHELI

### Q: What kit were you on in the Sunday races?

A: I started on my 11m North Warp and my 70cm Deboichet fin. After the first race I changed down to a 10m North Warp and put in a 67cm Deboichet fin.

### Q: Did you sail well or rubbish?

A: I sailed pretty badly during the whole day! In the first race I was behind Christine (Johnson) and Bryony (Shaw), but was catching up very quickly with downwind going deeper and faster than both of them. Unfortunately three-quarters of the way down the run my front foot came out of the strap and I fell in. It then took me ages to uphaul my 11m and that was the end of that race.

In the 2nd race, I got out there earlyish on my smaller stuff and got an awesome port tack start clearing the whole fleet! I tacked onto the starboard layline and was looking good for a top 5 rounding, and ahead of the girls. A big yacht decided to sail through our course and I had to go around the boat and consequently missed the windward mark and had to double tack big time!! Bryony rounded ahead of me and although I was gaining distance downwind I messed up upwind! I wasn't sailing high and overlaid my layline. In the third race I started on starboard and sailed to the port layline, when I came across I was looking good until I underlaid the windward and had to double tack again!! It just wasn't my day! I was pretty pissed about that and got annoyed with myself.
